Perspectives on Value-Based Care for CHCs

PRESENTERS: BRANDON HILL, DIRECTOR

TRAINING DESCRIPTION

Value-Based Health Care is a framework for restructuring health care systems around the globe with the overarching goal of value for patients. What can your CHC do today to prepare for the implications of this dramatic shift in your operating environment? Join our Health Center pros for this NEW half-day, CPE-eligible interactive training where we will share insights on value-based care models and how community health centers can prepare. Topics will include the impact of value-based care on reimbursement methodologies, modifying operations for this environment, risk-adjustment and coding's impact, care coordination and collaboration and more.
